**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Do you remember "Ma Bell"? Do you remember the good old days when there was "the phone company"? Do you remember having no choices other than to give your phone service business to "the only option"?

Why do you want the internet to be like that?

There are still communication cables being used that were paid for by taxpayers and basically given to communication companies for free. How do you dare tell one company they get to control access to those cables and tell another company they have no right to use them as well?
